

**RV ODOR
ABATE**
for Holding
Tanks

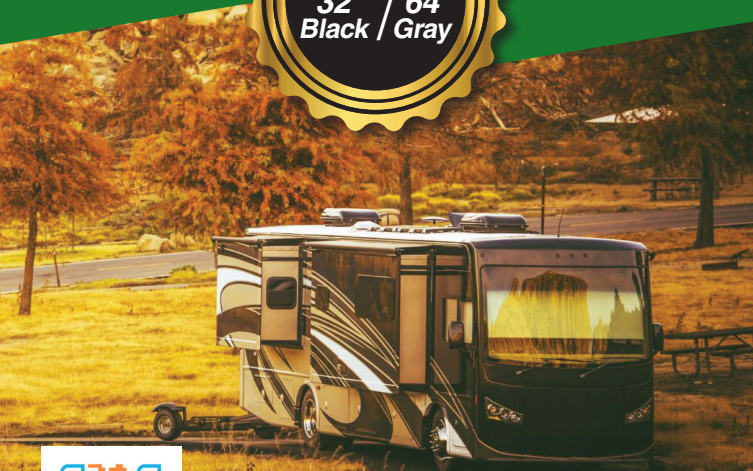

FORMULATED WITH STABITROL™

Stabitol™ safely aides in keeping Odor Abate completely dispersed within the holding tank.

DUAL-ACTION TECHNOLOGY

A Dual-Action control takes place in the holding tank. First, a chemical reaction converts odorous gases into microscopic particles. Second, it balances the pH, allowing the naturally occurring microbes to decompose the waste without causing order.

- 32 Black Water Treatments per bottle (1 oz.)
- 64 Gray Water Treatments per bottle (1/2oz.)
- Won't harm tank seals and fittings
- Eliminates odors on contact
- Formaldehyde Free formula
- Rapidly disperses in holding tank
- Less frequent pumping needs
- Non-Masking/Fragrance free agent
- Effective at temperatures above 105°F
